# Family Caregiver Program

Do you or someone you know provide care for an older loved one?

The Older Americans Act established what is called the National Family Caregiver Support Program (NFCSP), to provide services to our nations caregivers.

For the purpose of the program the definition of a CAREGIVER is: “an adult family member or another individual who is an informal provider of in-home and community care to an older individual.”

## Eligibility Requirements for the Caregiver Support Program:

The care receiver must be 60 years of age or older and a need for assistance must exist.

Priority for services will be given to older individuals with the greatest social and economic need, with particular attention to low income older individuals.

The Caregiver Support Program services that are available through the Northwest Kansas Area Agency on Aging are as follows:

**Information** to caregivers about available services

**Assistance** to caregivers in gaining access to services

**Caregiver Training** on various topics of importance to family caregivers

**Respite Care** to enable caregivers to be temporarily relieved from their caregiving responsibilities.

**Supplemental Services** to complement the care provided by caregivers. Attendant and/or personal care, bathroom items, chore services, homemaker, nutrition counseling, repair/maintenance/renovation.
